02 New Private GP Service

04 Women's Health and Menopause Specialist

Message from Our Business Relations Manager

Hello!

We recently hosted an extremely successful NHS eRs referral workshop for our local GP practices. Medical secretaries attended from practices across Berkshire, Oxfordshire and Surrey. This was a very interactive and informative event with everyone learning new and more efficient ways to use the eRs to ensure a smoother pathway for NHS referrals.

Our next forthcoming GP educational event is fast approaching. September is Urology Awareness Month so with this in mind The Berkshire Independent Hospital is hosting a complimentary Urology Masterclass being hosted in the Meadow Suite at Park House, Reading University on the evening of Tuesday 10 September 2024. All nine consultants from the Reading Urology partnership will be attending on the night with presentations on Prostate Cancer, Enlarged Prostate (BPH), Urinary Tract Infections, Incontinence and Management of Stone Disease.

Hot food will be served on arrival from 6.45pm with presentations commencing at 7.30pm - 9.30pm. This event is proving extremely popular with places going fast. Please contact me to reserve your place.

New Private GP Service at The Berkshire Independent Hospital

We are excited to announce our partnership with The Maxwell Practice who now offer private GP services every week day in our hospital at The Berkshire Independent. The Maxwell Practice, who also have a clinic in Henley-on-Thames, have a team of highly experienced, caring doctors who can see patients of all ages, including children. Consultations cost £150 for a lengthy 30-minute appointment which gives the patient plenty of time to discuss their concerns. Appointments are usually available the same day or next day and can be easily booked online or over the phone.

Alongside Private GP Consultations, they also offer Vaccinations, Health Screening, Weight Loss Plans, Menopause Consultations, Women's Health, Men's Health, Sexual Health and STI Testing, Contraception Services and Medical Certificates.

Launch of Women's Health and Menopause Specialist

Dr Shilpa McQuillan is the clinical lead and founder of Berkshire Menopause Clinic. She is also a local NHS Berkshire women's health GP, community gynaecologist, and British Menopause Society accredited menopause specialist.

Having a background in both gynaecology and General Practice, puts Shilpa in a unique position. She is passionate about providing the highest level of care in all aspects of women's health: She treats women of all ages with conditions such as menopause, perimenopause, bleeding disorders, pelvic pain, hormonal imbalance, vulval & vaginal conditions, and urinary symptoms. She also offers contraception, coils, implants, pessaries, breast checks, cervical screening, blood tests, and lifestyle & nutritional advice. She is able to provide care to women with complex medical backgrounds including those with a history of cancer, and manages complex procedures, treating women who have experienced difficult or unsuccessful coil insertions or cervical screenings.

Academic background and qualifications:

British Menopause Society Accredited Menopause Specialist; MRCGP; MRCOG; DFSRH; PGC Early Pregnancy Ultrasound; LOC (IUT, SDI); MBBS
